CROOK AND WILLINGTON
URBAN DISTRICT COUNCIL

I N T E R I M R E P O R T

of the

MEDICAL OFFICER OF HEALTH

for the

YEAR ENDED DECEMBER 31st. 1943

1.

To the Chairman and Members of the Crick and Willington
Urban District Council

Ladies and Gentlemen,

Ministry of Health Circular 10/44 of February 15th, 1944, states that the Annual Report of the Medical Officer of Health for 1943 is to be prepared on the lines of that for 1942, as indicated in Circular 2773 dated 10th March, 1943.

The treatment centre for Scabies has continued to perform very efficient work, and I have been very much helped by your decision to make Scabies a notifiable disease. 388 cases have been treated during the year 1943. During the year, 614 children were immunised. I am convinced that Diphtheria Immunisation has been a great benefit to the neighbourhood, and I regret that there is not an even greater demand for this precaution.

My greatest anxiety at present is the ever-increasing shortage of houses and the steady deterioration of many of the older type. I fully realise that you are doing everything possible to remedy this appalling state of affairs as soon as possible.

I have to thank all the Council officials for their help, especially Mr. Omand, Mr. Ayton, and Mr. Cummings. I also wish to thank you, Ladies and Gentlemen, for your continued interest and encouragement.

I have the honour to be, Ladies and Gentlemen,

Your obedient servant,

FENWICK LISHMAN.

Medical Officer of Health.

I give the number of infectious disease notifications during the year from which it will be noted that there have been no serious outbreaks of infectious diseases.
